

Camino Krk

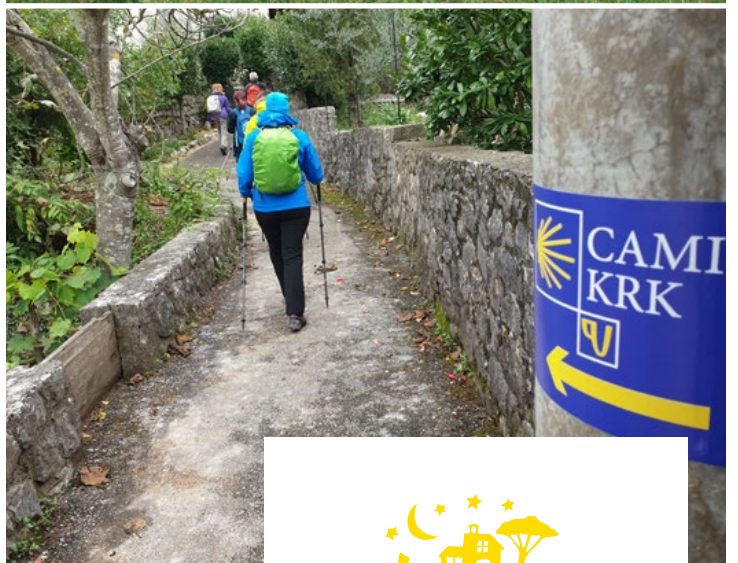

The Camino Trail is a newly marked Croatian trail that encompasses hundreds of kilometers of old shepherd pathways that crisscross the diverse landscape of Krk Island.

The Camino Trail's starting point is in the town of Krk and its ending point is in the settlement of Kornić, in front of a parish church dedicated to Saint Jacob. While hiking the hundred year old shepherd trails, besides enjoying the picturesqueness of the serene island olive groves, vineyards, and dry walls, you will also be amazed by the stunning views of beaches and the crystal clear sea.

The Camino package is intended for those who wish to experience the beauty of Krk Island's hiking trails and, accompanied by a professional guide who had personally walked the St. Jacob's trail to Santiago de Compostela, exchange pilgrimage experiences. The estimated duration of the Camino package that includes the island trails is 8 days (7 nights), however, the package can be adapted to a weekend package by selecting a few of the trails.

The package includes:

- 3 or 8 days of accommodation in apartments*** in the town of Krk or Punat
- 3 or 6 days of trekking with a guide
- transfers by minibus from the starting points
- transfers by minibus from the ending points to the apartment
